SUMMARY

ISSM with 18+ years managing RMF/ATO lifecycles, continuous monitoring (ConMon), POA&M remediation, and vulnerability management programs across classified DoD enterprise networks supporting U.S. submarine forces. Currently Cyber Assistant and ISSM at COMSUBRON ONE overseeing cybersecurity posture for seven operational submarines. Expert in ACAS/Tenable, VRAM, eMASS, STIG/SCAP, NIST SP 800-53, KMI/CMS, and DoD 8570/8140 compliance. Led USS Vermont (SSN 792) to achieve the highest Tenth Fleet cyber inspection score ever awarded (Mar 2026). Active TS/SCI. B.S. Information Technology, Summa Cum Laude. CISM in progress.

PROFESSIONAL EXPERIENCE

Cyber Assistant | ISSM | Cyberspace Workforce Program Manager Jan 2024 – Present

Commander, Submarine Squadron ONE (COMSUBRON ONE), U.S. Navy — JBPHH, Hawaii

- Serve as ISSM for a seven-submarine squadron — own full RMF/ATO lifecycle, eMASS package maintenance, STIG/SCAP enforcement, ACAS/Tenable vulnerability scanning, VRAM tracking, POA&M remediation, and continuous monitoring (ConMon) across classified and unclassified enterprise networks (CANES, NAVMAC, C4I).
- Led USS Vermont (SSN 792) to achieve the highest cyber security inspection score Tenth Fleet has ever awarded — recognized with a Navy and Marine Corps Commendation Medal from Commodore C.A. Hedrick, COMSUBRON ONE (Mar 2026).
- Executed three cyber security inspections and one KMI inspection across subordinate commands in a single reporting period — all satisfactory or better. Coordinated with authorizing officials (AOs) and ISSOs across seven commands to maintain continuous ATO status.
- Manages DoD 8570/8140 workforce compliance: tracks certification currency, identifies gaps, builds individual training roadmaps aligned to CYBERCOM requirements for all squadron cyber personnel.
- Co-authored ITN rate Occupational Standards at the CNO level — established Navy-wide cybersecurity competency benchmarks. Correlated ITN positions to college credit equivalencies, maximizing TA benefits and improving retention.

IW Enlisted Advisor | IT Division LCPO | ISSM Oct 2020 – Jan 2024

USS Springfield (SSN 761), U.S. Navy — Pearl Harbor, HI / WESTPAC

- Served as ISSM for a Los Angeles-class submarine: maintained RMF/ATO compliance, STIG/SCAP enforcement, and system accreditation across all classified/unclassified shipboard networks through four Western Pacific deployments — 100% system availability sustained throughout.
- Identified and remediated a KMI/CMS program rated 'unsatisfactory' — rebuilt all accounts, procedures, and audit records from the ground up. Achieved 'satisfactory' rating on three-year CMS Central Office of Record (COR) audit.
- Coordinated with ISIC, NAVSEA, and SPAWAR for STIG compliance, system integration, and accreditation; received commendation from ISIC for technical expertise and warfighting proficiency during most recent Undersea Battle Problem evaluation.
- Led 16 TYCOM maintenance jobs and 2,900+ items across three work centers — zero deferred items. Developed 32+ personnel across five paygrades to senior qualification. Ranked #1–#2 of 8 IW LCPOs across three squadrons; Early Promote every period.

IT Division LCPO | System Administrator | ISSM May 2017 – Oct 2020

USS Annapolis (SSN 760), U.S. Navy — Groton, CT / San Diego, CA / Pearl Harbor, HI

- Led command to Squadron Eleven Green Cyber 'C' Award (FY2019) — highest cybersecurity readiness designation. Managed classified/unclassified LAN and ITS systems through cross-country homeport change; two ship installations, zero deficiencies, full accreditation maintained.
- Qualified Diving Officer of the Watch (DOOW); 3M Inspection score >90%; qualified ISIC Cyber Inspector. Served as Command DAPA, achieving zero drug/alcohol incidents across the reporting period.

Network Administrator | LAN Admin | Information Assurance Officer (IAO)

Mar 2014 – May 2017

Commander, Submarine Group TEN (COMSUBGRU 10), U.S. Navy — Kings Bay, GA

- N6 Department IAO and LAN Admin for submarine group HQ: managed cybersecurity compliance and NMCI network infrastructure across 16 subordinate commands. Managed \$5.1M in enterprise IT assets; tech refresh of 780 computers and 80 MFDs — zero deficiencies. Contributed to process saving \$20.3M across the claimancy.

LAN Administrator | System Administrator

Aug 2008 – Feb 2014

USS Scranton (SSN 756), U.S. Navy — Groton, CT / Forward Deployed

- Administered classified and unclassified shipboard LAN across multiple WESTPAC/Mediterranean deployments. Completed formal ISSM school (A-531-0009, Kings Bay, Feb 2015), NSVT school (A-531-0022, Nov 2010), and Advanced Network Analyst (A-531-0045, Aug 2015) during this and subsequent assignment.

EDUCATION**B.S., Information Technology — Purdue Global University**

Dec 2025

Summa Cum Laude | GPA: 4.0 | Dean's List — All Semesters

CERTIFICATIONS & CREDENTIALS

CompTIA Security+ CE — IAT II (expired Sep 2018; renewal priority #1)

KMI KOAM — Certified March 2022
